## INTELLECTUAL PROPERTY LICENSE

This Intellectual Property License (the "**License**") is granted by iCare Academic, Limited Liability Company ("**Licensor**") to Wolters Kluwer Health, Inc. ("**Licensee**").

WHEREAS, Licensor and Licensee have entered into that certain Asset Purchase Agreement, dated December 1, 2010 (the "**APA**"); and

WHEREAS, the APA provides that Licensor shall license certain intellectual property to Licensee in the manner provided below.

NOW THEREFORE, pursuant to the APA and for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged:

On the date hereof, Licensor hereby (i) grants, and Licensee accepts, a non-exclusive, perpetual, irrevocable, royalty-free, fully paid-up, worldwide, assignable, and transferable right and license to use, under all intellectual property rights (including patents, copyrights, trade secrets, trademarks, and other intellectual property rights, whether now owned by Licensor or owned in the future by Licensor) the Usability Technology (defined below), and (ii) grants, and the Licensee accepts, an exclusive, irrevocable, royalty-free, fully paid-up, worldwide, assignable, and transferable right and license to use, under all intellectual property rights (including patents, copyrights, trade secrets, trademarks, and other intellectual property rights) the Usability Technology in connection with commercialized products based on the iCare Intellectual Property, and (iii) agrees to transfer, assign, and deliver to Licensee, and Licensee accepts, the Materials, to have and to hold the same for its own use and benefit forever, said Materials to be held and enjoyed for Licensee's own use and benefit and for the use and benefit of its successors, assigns or other legal representatives, together with all rights associated therewith, free and clear of all liens and encumbrances, provided that the above licenses and assignments shall all be subject to any rights held by the United States government and any restrictions imposed by the laws and regulations of the United States or by any agency thereof, including without limitation any such rights associated with that certain NSF sponsored grant associated with SBIR Phase I: Usability of iCare: An Academic Electronic Health Record Clinic Simulation Tool effective July 1, 2010 (the "**Grant**").

The rights of Licensee shall include the right to:

- a. make, use, copy and reproduce the Usability Technology worldwide;
- b. make, use, copy, modify, and create derivative works of the Usability Technology;
- c. combine the Usability Technology or any derivative works thereof with any hardware, software, product or service;

- d. publicly perform and display, import, broadcast, transmit, distribute, license, offer for sale, sell, rent, lease or lend (directly and indirectly) the Usability Technology (and derivative works thereof); and
- e. sublicense to third parties any of the foregoing rights;

All of the terms and provisions of this License shall be binding upon Licensor and its successors and assigns, and shall inure to the benefit of Licensee and its successors and assigns.

Licensor further covenants and agrees with Licensee that Licensor will, whenever and as often as reasonably required so to do by Licensee, a successor and/or an assign, as the case may be, execute, acknowledge and deliver such other reasonable licensing and transfer instruments, and take such other actions (other than the payment of funds) as may be reasonably required to more effectively grant to Licensee, such successor(s) or assign(s), as the case may be, the foregoing license rights in the Usability Technology and to more effectively transfer to Licensee, such successor(s) or assign(s), as the case may be, the foregoing rights in the Materials, and to put Licensee, a successor(s) and/or an assign(s), as the case may be, in possession of the Usability Technology and the Materials consistent with the terms hereof.

Licensor hereby reiterates and confirms each of the representations, warranties and covenants that it is making in the APA. Licensor hereby further represents and warrants that (i) a Software License Agreement by and between the University of Tennessee Research Foundation and Licensor, dated January 13, 2010, is of no further force and effect, except for Articles 3.1, 6.1, 12 and 13.2 thereof, (ii) Licensor has not licensed any Usability Technology to anyone, nor has it entered into any contract or agreement to do so, (iii) Assignor retained a sufficient ownership interest in the Usability Technology and the Materials that enable him to grant the licenses and make the assignment described herein and (iv) the DVD Package (defined below) contains all of the Materials.

For purposes herein the following capitalized terms shall the following definitions:

**"DVD Package"** means a collection of one or more DVD's that are labeled "Usability Materials" and signed by Licensor and that contain data, information and documentation relating to the Usability Technology.

**"eHR"** means electronic health or medical records.

**"iCare Intellectual Property"** means software and all associated content and Intellectual Property to support the teaching, testing and assessment of nursing, other health care and veterinary students and professionals relating to their ability to (i) work with eHRs and to access, record and query them, (ii) engage in patient teaching and care planning and mapping in connection with eHRs, and (iii) participate in medical billing and coding in connection with

eHRs, as such software exists as of the date hereof, including source code, object code, any related interfaces and workflow tools, all technical, development, operational, end-user, and marketing documentation, third party license rights, dashboards, screen views, what appears to be actual patient health information (but in fact is based on fictional persons with fictional health conditions), database support, stored lists, and business rules. iCare Intellectual Property shall include, without limitation, iCare Related Developments.

**"iCare Related Developments"** shall mean inventions, discoveries, know-how, designs, methods, improvements, technology, products, works of authorship, trademarks, trade secrets, mask works and derivative works (collectively referred to as "developments") related to the iCare Intellectual Property and that are developed, conceived, and/or reduced to practice prior to the execution hereof, as well as any rights that Licensor may have to future developments related to the iCare Intellectual Property.

**"Materials"** means software, source code, documentation, flow charts, marketing and survey materials, including customer contact information, mailing lists and other marketing, sales or customer prospect information, and all other written materials relating to the Usability Technology.

**"Intellectual Property"** means (a) patents, patent applications, inventions and statutory invention registrations, (b) registered trademarks (where the term "trademark" as used in this Agreement includes all trademarks of any type, including service marks, certification marks and all other indicia of source or origin) and applications for same, including all goodwill associated therewith, (c) unregistered copyrights, registered copyrights and applications for same, (d) trade names, logos, common law and unregistered trademarks, Internet domain names, Internet and World Wide Web URLs or address, unregistered works of authorship, (e) computer software, records and data, including business rule data and user interface data, (f) confidential and proprietary information, including trade secrets and know how, and (g) all other intellectual property.

**"Usability Related Developments"** shall mean inventions, discoveries, know-how, designs, methods, improvements, technology, products, works of authorship, trademarks, trade secrets, mask works and derivative works (collectively referred to as "developments") related to the Usability Technology and that are developed, conceived, and/or reduced to practice prior to the execution hereof, as well as any rights that Licensor may have to future developments related to the Usability Technology, including without limitation any additional developments that Licensor may acquire in the completion of its duties under the Grant.

**"Usability Technology"** means data, information, documentation and all associated content and Intellectual Property relating to user interfaces and usability that was conceived, developed or reduced to practice in connection with the conception, development or reduction to practice of the iCare Intellectual Property, including source code, object code, any related interfaces and workflow tools, all technical, development, operational, end-user, and marketing documentation, third party license rights, dashboards, screen views, what appears to be actual patient health information (but in fact is based on fictional persons with fictional

health conditions), database support, stored lists, and business rules. Usability Technology shall include, without limitation, Usability Related Developments.

This License may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

This License shall be governed by the internal laws of the State of Tennessee.
