Dear Honorable Lane,

As an American Airlines retiree with 26 years of service and now 65 years of age, I respectfully implore you to require AMR to honor their commitment to me, and all retirees, to continue our pension and healthcare benefits. I speak for myself, and my retired colleagues, when I say we cannot take care of ourselves financially without our pension. We worked extremely hard to make American Airlines the best in the business and expect their fair treatment in return now when we need it.

Respectfully,
